lot or property.

4.2 Grandfathered Projects.

1. Notwithstanding any other provision of this Ordinance, that portion of a project for which a valid building permit has been issued prior to the effective date of this Ordinance shall not be subject to development impact fees so long as the permit remains valid and construction is commenced and is pursued according to the terms of the permit.
2. Any building for which a valid and complete application for a building permit has been received prior to the effective date of this Ordinance may proceed without payment of fees otherwise imposed by this Ordinance, provided that:
 - (A) all fees and development exactions in effect prior to the effective date of this Ordinance shall be or have been paid in full; and,
 - (B) said construction shall be commenced, pursued and completed within the time established by the building permit, or within 180 days, whichever is later.

4.3. Method of Calculation.

1. Any development impact fee imposed pursuant to this Ordinance shall not exceed a project's proportionate share of the cost of system improvements, shall be calculated on the basis of the establishment of service areas, and shall be calculated on the basis of levels of service for public facilities that are the same for existing development as for new growth and development, as established in the Capital Improvements Element of the Comprehensive Plan.
2. Notwithstanding anything to the contrary in this Ordinance,

- the calculation of impact fees shall be net of credits for the present value of ad valorem taxes or other revenues as established in the Capital Improvements Element of the Comprehensive Plan, and ~~with~~
- (A) are reasonably expected to be generated by new growth and development; and
 - (B) are reasonably expected on the basis of historical funding patterns to be made available to pay for system improvements of the same category and in the same service area for which an impact fee is imposed.
3. The method of calculating impact fees for public facilities under this Ordinance shall be maintained for public inspection as a part of the official records of Bryan County, Georgia, and may be amended from time to time by official act.
 4. In addition to the cost of new or expanded system improvements needed to be built to serve new development, the cost basis of a development impact fee may also include the proportionate cost of existing system improvements to the extent that such public facilities have excess service capacity and new development will be served by such facilities, as established in the Capital Improvements Element of the Comprehensive Plan.
 5. Development impact fees shall be based on actual system improvement costs or reasonable estimates of such costs, as set forth in the Capital Improvements Element of the Comprehensive Plan.

Section 5. Fee Assessment and Payment.

5.1. Fee Schedule.

1. Payment of a development impact fee pursuant to the fee schedule as established by resolution and amended from time to time by a majority vote of the Bryan County Commission for a property located inside of Bryan County, shall constitute full and complete payment of the project's proportionate share of system improvements as individually levied by Bryan County, and shall be deemed to be in compliance with the requirements of this Ordinance.
2. When a land development activity for which an application for a building permit has been made includes two or more buildings, structures or other land uses in any combination, including two or more uses within a building or structure, the

total development impact fee shall be the sum of the fees for each and every building, structure, or use, including each and every use within a building or structure.

3. In the event that an applicant contends that the land use category of the proposed development is not shown on the fee schedule or fits within a different category, then:
 - (A) The Administrator in his or her sole discretion shall make a determination as to the appropriate land use designation and the appropriate development impact fee.
 - (B) In making such determination, the Administrator may require such additional information from the applicant as necessary to form a logical fee determination relative to the impact fees shown on the adopted fee schedule.
 - (C) If a land use designation is not in a category contained in this Ordinance, then an appropriate new category may be added by the Administrator and an appropriate fee established under the County's current impact fee methodology, subject to annual confirmation by the Board of Commissioners.
 - (D) Appeals from the decision of the Administrator shall be made to the Board of Commissioners in accordance with the Administrative Appeals Section of this Ordinance as well as the Georgia Development Impact Fee Act (O.C.G.A 36-71-1).

5.2. Timing of Assessment and Payment.

1. Development impact fees shall be assessed at the time of application for a building permit.
2. All development impact fees shall be collected no earlier than the time of issuance of a building permit, and no later than as a prerequisite to issuance of a Certificate of Occupancy for the building.
3. For projects not involving issuance of a building permit, all development impact fees shall be collected at the time of approval of the development permit or such other authorization to commence construction or to commence use of a property.
4. If the final use of a building cannot be determined at the time of the initial building permit, the Administrator shall have the authority to assess a development impact fee based on the most likely use of the building, and shall adjust the fee in

accordance with the actual use prior to issuance of an interior finishes permit or approval of a Certificate of Occupancy. An adjustment may result in a refund to the feepayor or payment of the marginal increase of the adjusted fee over the amount already paid.

5. Notwithstanding any other provision of this Ordinance, any future change in demand for public facilities in excess of the average demand anticipated at the time of issuance of the building permit shall be assessed such additional fee as would otherwise have been due. Future changes in demand may result from a change in the land use category of the occupant of the building or property, the expansion of a building or use on a property that results in an increase in the units of development (as defined herein), or the subsequent discovery of facts unknown or misrepresented at the time of issuance of the building permit.
6. All impact fees calculated/assessed herein shall be valid for a period of 180 days. After which, the Administrator may require the resubmittal of the land development activity or permit application.

5.3 Individual Assessment Determinations.

Individual assessments of development impact fees may be established as follows:

1. At their option, an applicant for development approval may petition the Administrator for an individual assessment determination of development impact fees due for their project in lieu of the fee established herein and recorded in the "Bryan County Schedule of Fees" on file with and maintained by the Clerk of the Board of Commissioners.
2. In the event that an applicant elects an individual assessment, the applicant shall submit an individual assessment study. Each individual assessment study shall:
 - (A) be based on relevant and credible information from an accepted standard source of engineering or planning data; or,
 - (B) be based on actual, relevant, and credible studies or surveys of facility demand conducted in Bryan County or its region, carried out by qualified engineers or planners pursuant to accepted methodology; and,
 - (C) provide any other written specifications as may be reasonably required by the Administrator to substantiate

the individual assessment determination.

3. The Administrator in his or her sole discretion shall determine whether the content of an individual assessment study satisfies the requirements of this Ordinance. A negative determination by the Administrator may be appealed to the Board of Commissioners in accordance with the Administrative Appeals Section of this Ordinance.
4. Any fee approved as an individual assessment determination shall have standing for 180 days following the date of approval. Payment of such an approved individual assessment determination shall constitute full and complete payment of the project's proportionate share of system improvements as individually levied by Bryan County, and shall be deemed to be in compliance with the requirements of this Ordinance.

5.4 Fee Certification.

Upon application to the Administrator, a developer may receive a certification of the development impact fee schedule attached hereto and incorporated herein as Attachment A or a certified fee for a particular project, as applicable. Such certified schedule or fee shall establish the development impact fee due for a period of 180 days from the date of certification, even if new or revised rate schedules are adopted in the interim.

Section 6. Exemptions

6.1. Exemption Policy

Bryan County recognizes that certain non-residential development projects provide extraordinary benefit in support of the economic diversification and advancement of the county's citizens over and above the access to jobs, goods and services that such uses offer in general.

- (A) To encourage such development projects, the Board of Commissioners may consider granting a reduction or full exemption in the impact fee for such a development project upon the determination and relative to the extent that the business or project represents extraordinary economic development, economic diversification and employment growth of public benefit to Bryan County, in accordance with adopted exemption criteria.
- (B) It is also recognized that the cost of system improvements otherwise foregone through exemption of any impact fee must

be funded through revenue sources other than impact fees.

6.2. Process for Exemption Approval

An application for exemption shall be considered under the following procedures:

- (A) Application for exemption approval must be made by the building permit applicant to the Administrator. A building permit may be issued upon approval of an exemption, or may be issued without payment of applicable impact fees following receipt of a complete exemption application and pending its approval, but a Certificate of Occupancy shall not be issued until a decision regarding the exemption has been made, or until such time that the application for exemption is otherwise withdrawn by the applicant and payment of impact fees have been paid.
- (B) Documentation must be provided to the Administrator that demonstrates the applicant's eligibility for an exemption. This documentation shall address, but need not be limited to, all applicable exemption criteria adopted by the County. This documentation constitutes the application for exemption.
- (C) The Administrator in his or her sole discretion shall determine whether an application for exemption addresses the exemption criteria adopted by the County and is complete. A negative determination by the Administrator may be appealed to the Board of Commissioners in accordance with the Administrative Appeals Section of this Ordinance. The Administrator or the Board of Commissioners shall determine the eligibility for and extent of exemption, in accordance with the standards and procedures contained in the exemption criteria adopted by the Board of Commissioners. If action by the Board of Commissioners is required, the application for exemption shall be considered at the next regularly scheduled meeting of the Board of Commissioners that falls at least two weeks after a complete application for exemption has been received by the Administrator.

6.2. Exemption criteria – Non-residential extraordinary economic development, employment growth and community facilities.

All non-residential projects may be considered for exemption, in whole or in part, from the payment of transportation/mobility impact fees otherwise required by the chapter. The intent herein is to encourage economic development diversification and job

creation or the creation of community gathering places of unincorporated South Bryan County. The following conditions must be met:

1. The development project must have a capital investment of at least \$1,000,000 in the construction or renovation of floor area, and

The average wage level within the county shall be determined by the Administrator from time to time based in credible data, such as reports from the U.S. Bureau of the Census or the U.S. Department of Commerce.

Section 7. Deposit and Expenditure of Fees.

7.1. Maintenance of Funds.

1. All development impact fee funds collected for future expenditure on construction or expansion of facilities pursuant to this Ordinance shall be maintained in one or more interest-bearing accounts until expended. Restrictions on the investment of development impact fee funds shall be the same that apply to investment of all such funds generally.
2. Separate accounting records shall be maintained for each category of system improvements within each service area wherein fees are collected.

capacity available to serve new growth and development.

3. Notwithstanding anything to the contrary in this Ordinance, the following shall be considered general revenue of Bryan County, and may be expended accordingly:
 - (A) impact fees collected to recover the present value of excess capacity in existing system improvements;
 - (B) any portion of an impact fee collected as a repayment for expenditures made by Bryan County for system improvements intended to be funded by such impact fee; and,
 - (C) any portion of the impact fee (but not to exceed three percent of the total) collected and allocated by the Administrator for administration of the impact fee ordinance, and such additional amount assessed for repayment of the cost of preparing the Capital Improvements Element of the Comprehensive Plan.

8.1. Credits; Restrictions.

1. Except as provided in Paragraph 2 below, no credit shall be given for construction, contribution, or dedication of any system improvement or funds for system improvements made before the effective date of this Ordinance.
2. If the value of any construction, dedication of land, or contribution of money made by a developer (or his or her predecessor in title or interest) prior to the effective date of

this Ordinance for system improvements that are included for impact fee funding in the Capital Improvements Element of the Comprehensive Land Use Plan, is greater than the impact fee that would otherwise have been paid for the Project, then the developer shall be entitled to a credit for such excess construction, dedication, or funding. Notwithstanding anything to the contrary in this Ordinance, any credit due under this section shall not constitute a liability of Bryan County, and shall accrue to the developer to the extent of impact fees assessed for new development for the same category of system improvements within the same service area.

3. In no event shall credit be given for project improvements, or for system improvements not included for impact fee funding in the Capital Improvements Element of the Comprehensive Plan.

8.2. Granting of Credits.

1. Credit shall be given for the present value of any construction of improvements, contribution or dedication of land, or payment of money by a developer or his or her predecessor in title or interest for system improvements of the same public facilities category and in the same service area for which a development impact fee is imposed, provided that:
 - (A) the system improvement is included for impact fee funding in the Capital Improvements Element of the Comprehensive Land Use Plan;
 - (B) the amount of the credit does not exceed the portion of the system improvement's cost that is eligible for impact fee funding, as shown in the Capital Improvements Element; and,
 - (C) the Board of Commissioners shall have explicitly approved said improvement, contribution, dedication, or payment and the value thereof prior to its construction, dedication, or transfer.
2. The credit allowed pursuant to this Section shall not exceed the impact fee due for such system improvement unless a greater credit is authorized under a private agreement executed under the provisions of Section 9 of this Ordinance.

Credits under this Section shall be valued using the following guidelines:

1. For the construction of any system improvements by a developer or his or her predecessor in title or interest and accepted by the County, the developer must present evidence satisfactory to the Administrator of the original cost of the improvement, from which present value may be calculated.
2. For any contribution or dedication of land for system improvements by a developer or his or her predecessor in title or interest and accepted by the County, the original value of the land shall be the same as that attributed to the property by the validated tax appraisal at the time of dedication, from which present value may be calculated.
3. For any contribution of capital equipment that qualifies as a system improvement by a developer or his or her predecessor in title or interest and accepted by the County, the value shall be the original cost to the developer of the capital equipment or the cost that Bryan County, Georgia would normally pay for such equipment, whichever is less.
4. For any contribution of money for system improvements from a developer or his or her predecessor in title or interest accepted by the County, the original value of the money shall be the same as that at the time of contribution, from which present value may be calculated.
5. In making a present value calculation, the discount rate used shall be the net of the interest returned on a State of Georgia, AA rated or better municipal bond less average annual inflation, or such other discount rate as the Board of Commissioners in its sole discretion may deem appropriate.

8.4. Credits; Application.

1. Credits shall be given only upon written request of the developer to the Administrator. A developer must present written evidence satisfactory to the Administrator at or before the time of development impact fee assessment.

3. Any credit approved by the Administrator shall be acknowledged in writing by the Administrator and calculated at the time of impact fee assessment.

8.5. Credits; Abandoned Building Permits.

In the event that an impact fee is paid but the building permit is abandoned, credit shall be given for the present value of the impact fee against future impact fees for the same parcel of land, upon submission of adequate evidence to the Administrator that an impact fee was received by the County, the amount paid, and that the building permit was abandoned.

Section 9. Refunds.

9.1. Eligibility for a Refund.

1. Upon the request of a feepayor regarding a property on which a development impact fee has been paid, the development impact fee shall be refunded if:
 - (A) capacity is available in the Public Facilities for which the fee was collected but service is permanently denied; or,
 - (B) the development impact fee has not been encumbered or construction has not been commenced within six years after the date the fee was collected.
2. In determining whether development impact fees have been encumbered, development impact fees shall be considered encumbered on a first-in, first-out (FIFO) basis.

9.2. Notice of Entitlement to a Refund.

When the right to a refund exists due to a failure to encumber the development impact fees, the Administrator shall provide written notice of entitlement to a refund to the feepayor who paid the development impact fee at the address shown on the application for development approval or to a successor in interest who has given adequate notice to the Administrator of a legal transfer or assignment of the right to entitlement to a refund and who has provided a mailing address. Such notice shall also be published in a newspaper of general circulation in Bryan County within 30 days after the expiration of the six-year period after the date that the development impact fee was collected and shall contain a heading "Notice of Entitlement to Development Impact Fee Refund." No refund shall be made for a period of 30 days from the date of said publication.

9.3. Filing a Request for a Refund.

All requests for refunds shall be made in writing to the Administrator within one year of the time the refund becomes payable or within one year of publication of the notice of entitlement to a refund, whichever is later. Failure to make a claim

for a refund within said time period shall result in a waiver of all claims to said funds.

9.4. Payment of Refunds.
